**MEMORANDUM FOR: CHIEF, INSPECTION AND REVIEW**

**SUBJECT:                   An Analysis of Time Spent by DD/P Personnel  
in the Briefings for the Clark Committee**

1. The total number of hours spent by DD/P Personnel in the organized briefings for the Clark Committee was 3,068 man hours or approximately 383 working days. Due to the many variables involved in a study of this type, which does not include preparation time, travel time nor waiting time, the above figure represents only a very conservative estimate of the total number of hours spent.

2. Although the total number of hours includes Graphic support time, it does not include administrative, clerical and stenographic time, nor does it include chauffeur time. If the administrative, clerical, and stenographic support time were included in the overall figure, it undoubtedly would be tripled.
